Main Features of Capital Instruments (Table 2)

Regulatory capital is limited to Retained Earnings and the General Reserve for Credit Losses. There are no capital instruments issued by First Option Bank.

Remuneration Disclosures – as at 30th June 2019

Information relating to those that oversee remuneration:

First Option Bank has a Remuneration Committee to oversee the remuneration as per the bank's Remuneration Policy. The remuneration of the Board must be approved by the members in general meeting before being effective.

The Remuneration Committee comprises the Board of Directors of the bank.

For the purposes of APS 330, the management team is divided into:

	Description	Number
Executive directors		Nil
Senior managers	Managers including the functions of Finance, Risk and Compliance	3
Material risk-taker	Persons subject to bonus or performance based remuneration	Nil

Information relating to the design and structure of remuneration:

The Board of First Option Bank has approved a Remuneration Policy covering the entire organisation. The policy has been established to oversee the remuneration of the senior managers of credit union in line with the requirements of CPS 510 Governance. The policy was last reviewed in November 2018. No major changes were made to the policy.

The risk and compliance area is overseen by the Chief Financial Officer (designated Chief Risk Officer) who is on a fixed salary which is evaluated under the Remuneration Policy to ensure that the reporting obligations are not compromised by financial incentives.

How current and future risks are taken into account in the remuneration process:

The Remuneration Policy seeks to ensure that quality employees are employed, and retained and are remunerated in accordance with their responsibilities and experience.

The Remuneration Committee assess the relevant remuneration on a case by case basis to ensure the remuneration reflects the skill and experience of the managers to meet the board expectations and changes in the business proposed by the strategic plan.

How First Option seeks to link performance during a performance measurement period with levels of remuneration:

First Option's performance is impacted by the market conditions at the time and by the level of adherence to its policies, so as to remain within the Board's risk appetite.

First Option does not have a direct link between the performance and remuneration. The Remuneration Committee takes into account a combination of factors, such as financial performance in the economic environment, compliance with regulatory requirements and the results of other strategic goals, in assessing the performance of the CEO.

Adjustments to remuneration to account for longer-term performance:

There are no specific measures taken to reward longer term performance. Remuneration is based on the salary agreed in consultation with the senior manager. There is no deferred remuneration arranged with the managers other than the employee statutory entitlements and award conditions as amended.

Variable remuneration:

There are no elements of variable remuneration at First Option that are pre-determined. A performance bonus may be awarded in the event of exceptional performance.

Remuneration Disclosures – as at 30th June 2019
